

GETTING INFORMATION:

There are many ways we aim to communicate LFT Wellington information; Email, Newsletters, Website and now Facebook!!

Our website is www.lft.org.nz and on FACEBOOK you can find us at:
<http://www.facebook.com/pages/Laura-Fergusson-Trust-Wellington/219547408105468>

The arrival of the 2 buildings onto the new land on September 11th was just the beginning of a tonne of work that will take place between now and April 2012.

The boiler shed at the end of studio's 1-3 has been removed and we can now look directly across at the back of the new building. The 3 parts of the building have been re-connected this week to form one main building and it is a very large building.

When first seen on the golf course the building looked large but now seeing it on our site it is even bigger and more impressive. Both buildings are now on their permanent piles and the internal development will start in due course.

Slogan/Motto

“Building on our Abilities” has been formally adopted as the tagline or slogan for our development work. This slogan is intended to reflect core aspects of how our project work is being planned and undertaken, and also core aspects of what is expected as an outcome of all of the project activity.

Logo

The approved logo pictured right.

The logo is based on the concept of expansion: it evokes the concepts of growth, embracing people and shelter. It is a graphic representation of the idea of incremental implementation of the LFT strategic vision.

The logo reflects LFT's development principles of:

Strong partnerships; Effective governance and management; and Expanded services.

WELCOME THE SCHWASS TEAM to LFT

The Schwass Team have commenced work in earnest on our site!

Every weekday between 7.30am—4pm they will be working to get the building interior ready. We can expect that there will be some noise and dust etc...this shouldn't generally be anything too excessive but it is important to be aware of it.

The core Schwass Team will attend an induction with Sue and Karen and will be with us consistently from now until the interior of the buildings is ready to be furnished.

As they will be around for some months it would be good to make them feel welcome and get familiar with their faces.

TUESDAY 11th OCTOBER

The Board of Trustees visited Laura Fergusson Community this week to share a celebratory toast with the residents and to view the buildings now they have reached their final destination.

It was a milestone to see all their hard work come to fruition and exciting to be able to visualise what the finished buildings may look like.
