

Week 15—21st August

Dan and Lance were volunteers with the Waiwhetu Stream replanting day.

Lots of Volunteers replanted the banks north of Laura Fergusson in a surprisingly sunny afternoon . Laura Fergusson hosted afternoon tea and allowed the volunteers to use this as a a base. The stream along the edge of our new land will be planted in 2012

Note our new symbol at the top of the page

It focuses on the concept on expansion:.

It evokes the concepts of growth, embracing people and shelter.

It represents the idea of incremental implementation of our strategic vision.

It reflects LFT principles of strong partnerships, effective governance and management, and expanded services.

What do you think???

Week 16—22 August

The Safety fence is up around the perimeter of the new section in readiness for the digging of the foundations.

The containers have been shifted and the gravel is being put down for the car parking.

We also have a volunteer , Liko, working on the new land saving trees and plants so they are not damaged during the building arrival.
