

## Building on our Abilities...

**APRIL 2009** - we blessed the newly acquired land at the rear of Laura Fergusson. It was a beautiful autumn day filled with lots of local support and community spirit.

The land was the initial exciting step towards our future; building on the abilities of LFT Wellington.

**JULY 2009** - saw the arrival of the first of our storage containers that allow for much needed storage space during the process.

Next came Laura Fergusson Grove which provides access to the property from Summit Road end.

## **JUNE 2011**

With the lockwood on its way to being utilised as a residential flat the managers were relocated to their cosy new office...the portacom.
