

Jane's Sweet Peas.

Sweet Peas remind me of my dad and our first home at Kloof in Natal which is in South Africa. I remember everything we did in the old days back there.

My dad used to grow Sweet Peas in our big garden when I was very young. The people at my dad's office went mad over buying sweet peas from my dad. I used to send some to the school teachers and headmaster of The Brown's school that I went to for 18 years, from the age of 9 months old.

I have always loved Sweet Peas and I will never forget the time that we grew these in our home.
